FOOTBALL SWEETHEART Linda Richardson receives traditional bouquet of roses at Quarterback Club banquet Friday night. Miss Richardson is a senior at Yoe High School, daughter of Dr. and Mrs. S. H. Richardson.

## URGENT PLEA FOR BLOOD DONORS GIVEN

The Central Texas Bloodmobile will be in Cameron from 12 noon to 6 p.m. Friday at the Methodist Fellowship Hall.

A 71-pint quota has been set for the Cameron area. Local Red Cross officials pointed out that blood from the Central Texas blood bank is presently being used to supply blood for Rebecca Brock, daughter of Mr. and Mrs. James Brock, Cameron, who is a patient in M. D. Anderson Hospital, Houston.

Sister Aloysius said there was a critical shortage of blood throughout the state because of the recent flu epidemic. Last week the Central Texas Blood Bank had only 5 pints of blood available until a special plea for donors added to the supply.

## Forms Distributed For Annual Census

Census for the Cameron schools is underway this week and family census forms have been sent to parents of children now attending school. All children who will be 6 years old before September 1, 1968, should be included in the census.

Miss Mary Belle Batte, census enumerator, said contacts through children now in school missed many children who will be entering the first grade in September. "We need the parents' cooperation in contacting my office so planning for the next school year can be made with an accurate count of children," she said.

Census forms are available in Miss Batte's office in the Ben Milam School.

## Mayor, 2 Council Posts Up For Vote

A mayor's race in the upcoming April city election and four more filings marked news this week in politics from city to district level.

Civic leader E. A. Perrin and incumbent Mayor Bassel Wilson have filed for the new two-year term for mayor to be determined in the April 2 city election.

Two other Council posts, Place 1, held by Lester W. Turner, and Place 2, held by R. W. Wells, are up for election.

City Secretary J. B. Fuller told The Herald that Perrin and Wilson filed the same day last week, Thursday.

Filing with Milam Democratic Chairman Max McClaren this week were W. R. Poage, incumbent congressman of the 11th District seeking a 16th term; Dalton Caffey for commissioner Precinct 4; Herman Dorner, Jr., Burlington, constable Precinct 7; and John Zajicek constable Precinct 6.

**FILING DEADLINES**

Filing deadlines for the May Democratic primary is February 5, according to McClaren.

Filing deadline for city office is 30 days prior to the Tuesday April 2 election, Fuller said. No other candidates had filed for council posts.

Filing deadline for the Cameron Independent School District is 30 days prior to the Saturday April 6 election according to Supt. D. R. Dodson.

School board posts held by Calvin Cobb, Coleman Duncum and Hilliard Thomas are up for election. Duncum is presently school board president and is serving out a complete term. Cobb is serving out the board term when he was appointed to fill the post vacated by Will Vogelsang.

In city election Wilson will be seeking his third consecutive term while Perrin is running for city elective office for the first time. He is a former superintendent of schools in Cameron and is active in the Elm Creek Watershed Board of which he is secretary.

Wilson also served one term as Cameron mayor from 1958 to 1960.

Both men are active in civic clubs and operate or have operated businesses in Cameron and in Milam County.

**PREVIOUS FILINGS**

Other previous filings for precinct county or district offices are: for State Representative District 27, incumbent Milton J. Schiller, and Dan Kubiak, a 1964 candidate; 20th District Judge, incumbent William C. Wallace; county attorney, John B. Henderson, Jr.; County sheriff, incumbent Carl C. Black; tax assessor - collector, incumbent Valter White; Commissioner, Precinct 4, incumbent, Mrs. Dora McCasland; Commissioner, Precinct 1, incumbent Adolph Gresak and Arnold Glaser; Commissioner, Precinct 3, incumbent Albert Timmerman; Constable, Precinct 2, Mrs. Loreine Thweatt and Charles W. Bailey; Constable, Precinct 1, incumbent Marshall Terry.

## Pickup Rams Into Val Verde Store Driver Critical

A 1966 GMC pickup truck rammed through the brick Val Verde Grocery Store on FM 437 about 10 p.m. Monday, shifting the entire building and destroying much of the contents.

Highway Patrolman Milton Wright said the accident was not discovered until 7 a.m. Tuesday and the driver, S. Woelfel Reinhard of Rt. 2, Killeen, was found unconscious inside the truck. The 40-year-old Killeen man was admitted to Scott & White Hospital in critical condition with deep lacerations.

## Walled Lake Door Plans Expansion Of Cameron Plant

Plant Manager James A. Wilkinson this week told The Herald that Walled Lake Door Co. is planning a 24,000-square-foot expansion.

Wilkinson also noted that a new door trimming machine is on the floor of the plant now and will be put into operation in the next week.

Wilkinson said an additional span will be built on either end of the present four-span plant. Each will be 60 feet by 200 feet.

The new milling machine will replace a smaller milling machine operating in the plant for the past 12 years.

Wilkinson said he believed construction on the new steel beam and metal wings will begin in March. And he indicated additional hiring would begin when the new machine began operation.

Walled Lake capacity is now about 4,500 doors daily, but with expansion will have prospects for about 7,000 doors daily in production, he said.

Two additional presses, which hold the door frames while the glue drying process is completed, will also be added.

## 4 Color TV's Taken At Hudson Robbery

Milam County Sheriff Carl Black said four color television sets were taken from Hudson TV late Friday night.

Black said entry to the building had been made by cutting through the sheet iron wall at the back of the store.

## 108

By F. M. L.

IN ABSENTIA — News sometimes crowds out the unimportant. Thus, 108 has been crowded out the last two weeks.

Since we run more large pictures, the amount of news space has necessarily shrunk. Some might like to see 108 disappear. And that only the column, we hope.

108-108-108

From the discussion of future school problems at the CISD Board meeting last week, we can see this district's schools are caught up in the changes being forged in sweeping recommendations in Austin.

The director of the Governor's Committee on Public School Education two weeks ago in Austin noted the direction of this inquiry.

Director Glenn H. Ivey told school administrators that "excellence in performance and super efficiency" must be sought, among other goals.

Supt. D. R. Dodson introduced ideas along these lines in comments on the federal portion of the CISD budget in suggesting:

—Streamlining the administration of federal funds and honing the teacher aide system, so that:

—Additional funds, up to 15 percent, he said, could be drawn from the federal portion (about $120,000 up) for some construction.

—Continuing "freedom of choice" integration this year, according to a letter from a Washington official of the Equal Education Opportunities office.

—Introducing a teacher evaluation program in the future.

108-108108

Cameron schools already have made considerable strides, but according to the view from Austin education leadership, we have much to anticipate in the modernization of local schools.

We mention these things in passing because a community or half a county, for that matter, orbits its future on what its schools do, and the progressive role church, school, government and business community share in meeting future demands.

## Junior Livestock Show Winners

Saturday's Milam County Junior Livestock Show was termed a huge success as county 4-H'ers and FFA members showed "some of the finest animals ever" in the 22nd annual event.

A total of 85 entries were in the show this year and results of the judging were:

Dairy division: Grand Champion animal was shown by Don Rose of Gause. Reserve Champion was shown by Melvin Hollas, Cameron. Melvin also won the Showmanship Award in the Dairy division. Other placings in class 2 - 2nd place, Clyde Jistel, Cameron. Class 1 - 2nd, Wayne Jistel, Cameron; 3rd Clyde Jistel. Class 3 - 1st, Keith McDaniel, Thorndale.

In the Sheep division it was all Billy Grimm from Thorndale. He showed the Grand Champion and Reserve Champion breeding ewes, the Grand Champion fat lamb and won the Showmanship Award.

Regular Board Meeting . . .

## School Looks Ahead

The board of Cameron Independent School District last Thursday met in a regular monthly meeting, discussing the federal phase of the CISD budget and desegregation for 1968-69.

No change in Cameron's "freedom of choice" plan was foreseen this year by school officials.

The Board accepted resignations of Mrs. Barbara Hughes, Miss Patsy Waters and Mrs. Pearlie Schulz. And they employed Mrs. Jack Ruzicka and Miss Lucy Smith.

Supt. D. R. Dodson proposed to get as much construction as possible from the 1968-69 portion of the CISD budget by reducing the number of teachers aides, cutting costs in administration of the federal portion and trying for 15 percent of the total for additional construction.

He said he would assume responsibility for administration of the federal Title programs, but was urged by Coleman Duncum, chairman of the board, to stay free of the additional load, but to pursue the proposals.

Dodson said he had been advised at a school administrators' meeting in Austin that "freedom of choice" plans are all but "no more". He mentioned two East Texas towns which have been advised to desegregate by next fall in one case and by the fall of 1969 in the other. The two towns are Pittsburg and Daingerfield.

BEST IN CLASS — Ray Coward of Cameron showed the Grand Champion in the Fat Steer division at the Milam County Junior Livestock Show in Cameron Saturday. Reserve Champion Fat Steer was shown by David McClaren, also of Cameron. The annual show drew 85 entries from 4-H and FFA members throughout the county.

# Rigs Move Again After Cold Spell

By Lloyd Albertson

Milam County's drilling activity, halted for the past ten days by cold, rainy weather, is starting to get under way again as wet grounds dry out and permit crews to move in to the drillsites.

Rig has been moved in for the No. 1 Ernest V. Brod, located about three and one-half miles southeast of Buckholts.

This wildcat is being drilled by W. H. Mahan, a Waco operator, and will be a Buda Lime test, permitted to 1,700 feet.

A Dallas contractor will drill the Brod, which is located on a 52-acre lease in J. A. de Pena Survey.

On the Bickett Estate tract just off the Hanover road several miles southeast of Cameron two wells drilled recently have been put on pump.

Storage tanks were moved in to the lease last month, but the two tests were waiting for power line to be run in to the location. Production is from the Navarro reportedly around 840-50 feet.

No potential test figures have yet been released on the two tests.

Two other scheduled wildcats, the Frio Petroleum Co. No. 1 W. H. Haley, Jr., and the No. 1 A. E. Bonorden, to be drilled by Dick Schwab, a Houston operator, reportedly will get underway as soon as weather conditions permit.

Both wildcats are located in the Milbur Field area.

CEMETERY IMPROVEMENTS — Oxsheer Smith of Cameron presents the City of Cameron, represented by Mayor Bassel Wilson, with a check for $1,000 for cemetery improvements recently completed in Oak Hill Cemetery.

# Kirk Is QB Club Trophy Winner

Wayne Kirk was awarded the Cameron Quarterback Club trophy for 1967 and Miss Linda Richardson was named 1967 Football Sweetheart at the annual YHS football banquet Friday night at Methodist Fellowship Hall.

Speaker Max Bumgardner, head coach at San Angelo State College, was introduced by Yoe Head Coach Ken Fuqua, one of his former linemen.

Master of ceremonies was Gene Smitherman.

Coaches David Siler, Edgar Classcock and Hal Stanislaw introduced the freshman, junior varsity and varsity teams. Managers and cheerleaders were introduced by Coach Fuqua.

Yoe captains Kirk, Jim Lafferty, Glenn Fogle and James Dohnalik gave a bouquet of red roses to Miss Richardson as team Sweetheart. They also presented a sweater to each coach, and the Club presented gifts to the coaches and spotters.

Rev. James Lafferty presented the Club trophy to Kirk, and the Outstanding Quarterback Club Member award to Bertie Shumate.

Incoming Club president Stewart Perkins presented Club President awards to Rev. Lafferty, and to past presidents Richard Williams, Gene Smitherman and Albert McCullin Jr.

The crowd of about 300 gridders, their dates, parents and school officials heard Coach Bumgardner compare football to Christianity, citing the story of David's army fighting the Philistines and "cleaving to the sword." He emphasized the leadership and toughness produced by the gridiron, and said football players learn to stick to their guns.

## County Officials At Elections Seminar

County Judge O. B. Harden, County Clerk Wayne Wieser and Democratic County Chairman Max McClaren are attending a one-day election seminar in Austin conducted by John Hill, Secretary of State.

The seminar will review election laws affected by new legislation governing general elections.

## Yoemen Open District Play, Navasota Wins

Yoemen opened '68 district play by dropping both varsity and B team games to the Navasota Rattlers Tuesday night.

In varsity competition, the Rattlers took off with a bang, putting the first quarter score at 29-15. At half time it was 62-46, Navasota leading.

Third quarter competition ended with a 62-46 score, and, despite Cameron efforts, the Rattlers kept the lead to the finish.

Leading individual scorers was Wayne Kirk with 20 points, Kirk entered the game with a 16.3 point average per game.

Second highest was Glenn Fogle with 13. Other Yoe net shakers were Tommy Terrell 8, Mike Miller 6, Charles Buchanan 5, Charles Maddox 3, and Dennis Chapman and Al Heffi, 2 each.

The Yoemen sank 64 percent of their free throws, and had 20 fouls.

**B TEAM PLAY**

In the B game, the Yoemen ran a close race. First quarter play showed a 12-6 lead for the Rattlers; half time sent the teams to the dressing rooms with a 29-17 score.

## SCHOOL—

**Continued from page one**

Board members scanned a copy of rulings entitled U. S. Court of Appeals (Fifth District) citing Jefferson County Board of Education Et Al (seven cases) v. United States of America involving desegregation decisions.

Dodson said he has a letter on file which shows Cameron's plan under the current "freedom of choice" acceptable through this year.

In other action, the board approved the bid of Tommy Chamberlain, of Chamberlain Meat Co., for meat provided for the school system during the second semester.

And they heard Supt. Dodson read some figures on school bank balances which show considerable gain from December, 1965, to December, 1967.

Saying "the money looks good, but it is difficult to evaluate it this time of the year," Dodson quoted general fund-state-county balances: Dec. 30, 1965 -- $2,790.68; Dec. 30, 1966 -- $17,818.87; Dec. 30, 1967 - $64,803.67. In interest and sinking fund, he noted: Dec. 30, 1965 -- $17,000 (only approximates given); Dec. 30 1966 -- $35,000 (approx); and Dec. 30, 1967 -- $50,000 (approx).

Dodson also reported the band hall is complete except for payment of electrical bills. And he noted a need for additional deep freezes in the school system. Payment of regular bills was authorized by the board.

Present were: Charles McDermott, Hilliard Thomas, Calvin Cobb, Barbee Barrett, Forrest Sapp, Dr. John Martin and Chairman Duncum. The board adjourned about 9:15 p.m.

## Some Expansion . . .

Considerable activity in agri-business and local industry marks the new year in Cameron.

Walled Lake Door Co. is adding about 24,000 square feet in floor space and is about to install a large new finishing machine, according to the plant manager.

And construction continues at Elm Creek Dairy on a huge standing area there.

Two agri-business industries are beginning installations along Santa Fe Railroad. They include Gulf Farm Service, where Eastern Seed once operated, and a liquid feed operation across from Santa Fe depot.

This activity is bound to mean new jobs for residents of this area. And both these investments and the new jobs are welcome in Milam County.

## License Pictures . . . .

The driver's license may never be a "thing of beauty" since, like passports, they now will bear the picture of the license holder. Anyone who ever saw the pictures on a passport or on most ID cards knows what we mean.

But the license will be far more colorful. We understand the pictures of the driver will be in color. And the license will be good for three years instead of two.

This is just another example of the change. The pictures will make it difficult for their transfer or use by persons other than the driver himself.

And for some, it may be the only picture of oneself in his billfold.

## OLD PHILOSOPHER

Dear editar:

People are always talking about politicians and their habit of trying to be on all sides of all questions, how it's hard to pin them down, impossible to get a straight yes or no answer out of them, etc., but some recent public opinion polls have brought another angle of the situation to me.

According to two different polls I read in two newspapers last night for example, the President's popularity standing has reversed in two months, going from a low of 31 percent to a high of 51. At one time it was up to 68 percent, then dropped to 23, then fluctuated back and forth.

Also, the same thing is shown in polls on other possible candidates, Nixon showing 41 percent once, then dropping, then gaining, then dropping; Romney showing 38 percent one time, then changing to 31. And so it goes.

What it looks to me like is that the politicians aren't alone when it comes to wis -washiness, the public itself has a hard time making up its mind. Why should a politician be expected to take a positive stand on Thursday when the public may take an opposite stand on Friday? A lot of politicians have gone down being wishy on the day the public decided to be washy.

I'd like to see the pollsters take a poll among the politicians on the popularity ranking of the public.

I can see the headlines now: Public's Popularity With Johnson Slips Nine Points; Romney Says Public Slides To A Low of 29; McArthur Says Public At Low Ebb With Him; Reagan Says Public Puts TV Ahead of Statesmanship; Senator Dodd Says No Comment.

It would be interesting to see if the public's popularity with the politicians changes as often as the politicians' popularity with the public.

By the way, if you're planning on taking a popularity poll on me, let's change the subject.

Yours faithfully,
J.A.

## Sales, Gasoline Tax Tables In Pamphlet

Taxpayers may use the Texas state sales tax and gasoline tax tables when preparing their 1967 Federal income tax returns. These tables are printed in the tax instruction pamphlets which are mailed to taxpayers.

According to A. P. Andrews, administrative officer of IRS in Temple, taxpayers are not required to use the table. The table is furnished as a guide for the convenience of those taxpayers who itemize dductions on their Federal income tax returns, but who wish to use an "average" amount for state sales tax and therefore avoid detailed substantiation. Of course, taxpayers have the choice of itemizing the actual amount of state sales taxes paid.

Martha Washington, wife of President George Washington, was previously married to Daniel Parke Curtis.

# Complaints Against LCB To Be Aired At Hearing

By Vern Sanford

AUSTIN

Texas Liquor Control Board activities occupy a widening spotlight.

Complaints of wrong-doing by some board employees will be aired at a hearing before LCB members and Administrator Coke Stevenson Jr. here January 29.

Gov. John Connally has priased the board for firing of seven men over incidents involving questionable sale of a confiscated truck and alleged mishandling of 11 bottles of contraband liquor.

Dallas Dist. Atty. Henry Wade called on the Texas Department of Public Safety to investigate the LCB after his staff came up with what he termed a "protection" scheme involving board agents. Grand jurors in Smith County also are probing a claim that one liquor license was so quickly granted that local law enforcement people had no chance to object.

Connally said he is confident the board itself will pursue every lead relentlessly and will call on DPS and the state attorney general to assist with the January 29 hearing.

"The board feels as I do," said the governor, "that any employee guilty of questionable conduct or misfeance or malfeasance should be punished severely and quickly."

**JUNIOR COLLEGE PROGRAM**

Only minor objections were heard as the Coordinating Board, Texas College and University System, held a public hearing on its new plan for dividing the state into 52 regions. Plan would allow each region at least one junior college.

Project envisions basic post-high school education at junior colleges, with upper - division college work done at senior colleges and post-graduate work at the major universities.

Only objections to the plan were from Chambers of Commerce and similar organizations. Some did not like the way the board lined up the regions, leaving them with little hope of having their own junior college.

**APPLICATION REVIEWS BEGIN**

Texas Water Quality Board will begin considering applications for grants and loans to plan areawide sewage treatment facilities on March 1.

Last year the Legislature allocated $2 million for planning and feasibility studies for such facilities.

Board already has established a tentative priority system with ratings from "A" to "D". Top "A" priority areas are "almost assured of getting part of the funds available."

"A" areas are Bexar and Guadalupe Counties: Jefferson and Orange Counties: Galveston County: Brazoria, Fort Bend, Harris, Liberty and Montgomery Counties: Cameron County: and Collin, Dallas, Denton, Ellis, Johnson, Kaufman, Rockwall and Tarrant Counties.

"B" ratings went to Travis, McLennan, San Patricio and Nueces, Lubbock, Potter and Randall, Archer and Wichita Counties.

"C" areas include: Gregg and Rusk Counties: Bowie, Grayson, Jones and Taylor Counties; El Paso and Bell Counties.

Counties in "D" priority are Brazos, Webb, Midland and Ector, Howard, Tom Green and Smith.

**APPOINTMENTS ANNOUNCED**

Howard B. Boswell of Austin is new executive director of Texas Water Development Board. He succeeds Joe G. Moore Jr., who becomes commissioner of the Federal Water Pollution Control Administration on February 1.

Robert L. Lewis, formerly of Ennis, succeeds retiring Talbot S. Huff as chief engineer of highway design for the Texas Highway Department on February 29.

John Myers Stokes of Lufkin is in charge of research services to candidates for the Republican state headquarters.

House Speaker Ben Barnes has named to the new Interim House Criminal Law Study Committee: Reps. James Nugent of Kerrville (chairman); Joe Shannon of Fort Worth; and Cletus Davis of Houston. Also El Paso District Attorney Barton Boling and San Antonio attorney Joe Frazier Brown.

Dr. Porter M. Bailes Jr. of Tyler was appointed by the State Board of Education to fill the seat of Dr. B. E. Masters of Kilgore, who retired January 1.

Longtime State Highway Engineer DeWitt C. Greer, Mark H. Hulings of Corpus Christi and Floyd J. Childs of Abilene are the new executive committee members of the Texas Good Roads Association.

**ATTY. GENERAL RULES**

County commissioners courts are not bound under the new open meetings law to permit live broadcasts of meetings or the taping of proceedings for delayed board cast, Atty. Gen. Crawford Martin held.

In other recent opinions, Martin concluded that:

—Anti-lottery laws are not violated by service stations which give away free cards entitling holders to win prizes.

—A city can impose its building restrictions on public junior college districts and require them to pay regular building permit fees.

—State Board of Examiners in Basic Sciences does not have authority to deny certificate of proficiency in chiropractic to an applicant otherwise qualified by law who presents evidence of having taken the required college credits.

—State Board of Registration for Professional Engineers can employ an investigator to assist in performance of duties.

—It is the obligation of the state to bury indigent patients who die in state hospitals or while on furlough from state institutions.

—Local governments can bring suits to enforce water and air pollution controls without approval of state agencies.

—Insurance companies subject to gross premium taxes are also subject to sales taxes.

—County commissioners have a right to erect cattle guards paramount to that of landowner's right to erect gates, when in best interest of public.

—Federal Bureau of Investigation cars are authorized emergency vehicles.

—Texas Water Quality Board may adopt rules prescribing fees for copies of documents filed with it but has no authority to distribute free maps, papers and other documents to persons affected by proceedings.

—Criminal trial witnesses are entitled to per diem compensation for the one day only regardless of the number of cases he testifies in that day.

# Cong. Poage Announces For Re-Election From 11th District

TO MY FRIENDS OF THE 11TH CONGRESSIONAL DISTRICT:

No one has, I am sure, in the long history of the Congress of the United States ever been privileged to represent a finer constituency than I. It has been a wonderful experience. I have sought to represent you effectively and honestly. I hope I may have the opportunity to continue this relationship. I am, therefore, today announcing my candidacy for re-election, subject, of course, to the action of the Democratic Primary, which will be held on May 4th, and I am filing the statutory applications required by law in each of the eleven counties of our Eleventh District. I sincerely hope that the Federal Courts will not force any further rearrangement of congressional districts in Texas.

The office belongs to the people of our district. If I am again entrusted with this responsibility, I shall, as I have in the past, try to judge each issue and each vote as seems to be in the interest of our country, our state, and our district, on the basis of the information available to me at the time.

Naturally, like every candidate, I would hope to make this race unopposed. Our primary comes at a time when I would not normally expect to be at home, but should I be confronted with an opponent, I shall expect to spend as much time in Central Texas to discuss fully and frankly any differences of viewpoint as to the best possible way to represent our district.

In any event, I shall need and I invite the active cooperation and work of all my friends throughout the district. No one ever won a political race alone and I am no exception. The people of this district have been fine and kind to me. I hope that I can continue to serve them.

With every good wish, I am

Sincerely,

W. R. POAGE, Congressman
11th Texas District

Paid Pol. Adv.

Mrs. Lafayette L. Spruill

# White, Spruill

Mr. and Mrs. Lafayette L. Spruill are making their home in Houston following their wedding November 25th at Park Place Methodist Church, Houston.

The bride is the daughter of Mrs. Alice White of Houston and the granddaughter of Mrs. E. E. Coker, Cameron. Mr. Spruill, a professional football player in Toronto, Canada, is the son of Mr. and Mrs. L. L. Spruill of Odessa.

The bride was given in marriage by her uncle, Mr. Grady Coker of Cameron. Her wedding gown was of white satin with A-line skirt and alencon lace applique across the neckline. A detachable chapel train at the back was also appliqued with alencon lace.

Her headpiece of white velvet roses held a fingertip veil of silk illusion and she carried a bouquet of two dozen red roses with lily of the valley. She wore diamond earrings and a diamond and pearl pendant, gifts of the groom.

Miss Melanie McKee of Houston was maid of honor. Her dress was fashioned of green velvet and she carried red roses.

Gary Arnold of Odessa was best man. Ben White of Cameron, brother of the bride, served as usher.

A reception was held following the ceremony at the home of the bride's mother.

The bride is a senior at Jesse Jones High School, Houston, and formerly attended school in Cameron. Mr. Spruill graduated from Odessa High School in 1964 and attended the University of Houston.

They will leave for Canada in June.

## DELPHIAN CLUB PROGRAM IS ON ADULT LITERACY

The Cameron Delphian Club met January 16 in the home of Mrs. J. A. Bowling with Mrs. J. H. Thomas as co-hostess.

Mrs. E. J. Burkes led the reading of the Club Collect.

Mrs. Leland Green Sr. presided during the business session. The program, "Why a Literacy Program for Milam County Adults" was given by Miss Mildred Thornton, who stressed the need of education for non-readers. Milam County has many adults who can not read or white and in Central

## CLUB PROGRAM ON EDUCATION

The Pleasure and Profit Club met in the home of Mrs. B. F. Grimes Thursday, January 11. An informative program on Education in Texas was given by Mrs. J. A. Bowling.

A dessert plate and coffee were served to the ten members present.

## DYMKE, OLLE SET APRIL DATE

Mr. and Mrs. James O. Olle of Austin have announced the engagement and approaching marriage of their daughter, Carol Ann, to Mr. Robert L. Dymke, Austin, son of Mrs. Nell L. Dymke of Cameron and Mr. Ronald P. Dumke of Houston.

An April wedding is planned at Crestview Methodist Church in Austin.

The bride-elect is a graduate of Sidney Lanier High School and attended the University of Texas. She is presently employed by Scientific Methods, Inc., Austin.

Mr. Dymke is a graduate of Yoe High School and attended Baylor University and Tarleton State College. He is presently employed by the Texas Department of Public Safety as a security officer at the Governor's Mansion.

## WEDDING DATE SET BY COUPLE

Mr. and Mrs. Albert Templin of Cameron announce the approaching marriage of their daughter, Brenda, to Clarence Pontruff, son of Mr. and Mrs. C. G. Pontruff of Rockdale.

## GARDEN CLUB PROGRAM ON JUDGE'S SHOW

"Judges Showcase" was the theme of the program presented by Mrs. Leo Fuchs when the Civic Garden Club met at her home last Thursday. The color slides were of the spring flower show by the Central Texas Council of Nationally Accredited Flower Show Judges, staged at the Garden Center in Waco. Mesdames Grabein, Dusek and Fuchs of the local club are members of the council and were exhibitors in the show.

The comments by the judges were availabie to the local club members who gained valuable information from these as special emphasis was given to demonstrate good judging techniques. It was noted that the judges' comments are very helpful to exhibitors.

Many modern flower arrangements were shown and the color slides were rated as excellent.

The club will observe Arbor Day on January 19. Mrs. John Ryan is chairman for the tree planting ceremony.

Mrs. J. A. Bowling, Club president, conducted the business session.

Mrs. Fuchs offered refreshments during the social hour.

## HD Agent's Notes

By Christine Laws

Resins in some garments can cause itching. When chemicals are added at the mill to make fabrics wrinkle - resistant, excess chemicals are sometimes not properly cured and not washed out before the fabric goes to the garment manufacturer.

This excess chemical, which is a formaldehyde, causes the itching. The resin itself, if properly cured and applied, causes no problem.

Drycleaners advise washing the garment or have your drycleaner wetclean it - if it's wetcleanable. When shopping, sniff the garment to check for telltale formaldehyde odor.

If you are a morning bather, try scrubbing your feet before you climb into bed at night. Scrubbing them with a brush and hot soapsuds stirs up circulation in the whole body. This will make you feel better all over and you will sleep better, too.

Genuine white suede, made of New Zealand lamb hides that can be hand-washed like fine lingerie, is now sold as yard goods. The manufacturer states that this leather will not become discolored even after numerous sudsings, and that it can be finger-pressed or even ironed to eliminate wrinkles after laundering.

Children four and five years old are developing individual tastes and interests. This will reflect in the books and stories they enjoy.

Sooner or later every good cook has to decide: would she rather see the last spoonfuls go to waste or to her waist?

## Cattle Lost By Nitrate Poisoning

By J. D. Moore

Several head of cattle were lost recently due to nitrate poisoning, according to Dr. R. M. Titsworth, local veterinarian. Stockmen are reminded that some of the hybrid forage sorghum hay contains a form of nitrate that is toxic to cattle. This creates a problem with stockmen who have supplies of hybrid sorghum hay.

Dr. Titsworth suggests feeding some form of carbohydrate feed with the hay while cattle are under stress grazing conditions. Grain supplemental fed with the hay should lessen the danger of toxic effects, according to Dr. Titsworth.

Stockmen who have possible nitrate problems should discuss their problems with local veterinarians since little time is available once the cattle are affected.

**PRUNE DAMAGED TREES**

Recent ice storms have broken and splintered shade trees as a result of the heavy coating of ice. This was true of many of the evergreen types, especially the live oak. An extremely heavy coating of ice on the dense foliage broke many of the larger branches.

Prompt attention and proper treatment of the damaged trees will aid materially in preventing permanent disfigurement and possible premature death. While the tree wounds are still fresh, much of the repair work can be done with a sharp pruning saw and an asphalt tree wound paint. An excellent tree wound dressing, available at most nurseries and garden centers, is orange shellac. But the wound should be recoated with a more permanent material within four to six weeks.

In pruning trees, follow these simple guidelines. The damaged branches should be removed flush with the trunk or nearest large branch. Stubs will only lead to a proliferation or sucker growth later on, always cut back to a side branch.

To prevent tearing the bark and causing additional damage to the tree in removing heavy limbs, make the first cut with the saw from the bottom side of the limb about 12 inches from the main branch. When the saw starts to bind make the second cut from above about eight inches from the main branch. After the branch splits off remove the remaining stub with a saw cut flush with and parallel to the main branch. Lastly, apply a tree wound dressing to the exposed surface to prevent the entrance of disease and insects.

**ICE DAMAGED TREES**

Prompt attention and proper treatment of shade trees damaged by recent ice storms will materially aid in preventing permanent disfigurement and possibly the premature death of the tree. This advice comes from Everett Janne, Extension landscape horticulturist at Texas A&M. Live oak trees were especially hard hit, he said. He suggests a visit to the local county Extension office for a copy of B-977, "Modern Pruning Methods," for detailed information on the needed corrective pruning.

## ASCS

By Alva E. Sanders

Farmers are urged to participate in the wheat and feed grain programs and divert more acres from wheat, corn, and grain sorghum production than in 1967. Program participation is the key to improving the supply and price situation for 1968 grain crops and safeguarding livestock producers against overexpansion.

Grain programs for 1968 are aimed at turning the supply situation around as a means of strengthening farm prices. The 1968 feed grain program is geared to an acreage that would produce about 2 to 3 percent less grain than will be in demand -- in contrast to the 2 to 3 percent oversupply that has been bearing down prices for the 1967 crops. Wheat acreage for 1968 is being trimmed to keep production in line with needs and bolster prices.

The 1968 feed grain objective should be met if at least as many farms participate in the program as in 1967 when 1.4 million farms were signed up. Resumption of payments for voluntary acreage diversion bevond the minimum 20 percent will encourage participating farmers to keep more land out of production and will substantially increase program payments above the $900 million level estimated for the 1967 program.

With participation in the 1968 wheat program as extensive as in 1967, wheat plantings should reflect the 10 million acre reduction in the national acreage allotment. In 1967, more than 800,000 wheat farms -- 85 percent of the alloted wheat acreage of the Nation -- participated. Participants in 1968 are expected to receive more than $700 million in wheat marketing certificate payments.

Reduction in the cotton surplus has been accelerated by two bad crop years in succession. The 1968 program provides for some expansion in production. With more production in the offing, program payments will be a somewhat smaller proportion of total cotton income than in 1967 when 500,000 participating farmers received $925 million.

## FFA Youths Enter Houston Stock Show

George Foster and Murray McDermott, FFA members of Cameron, have each entered a pen of three Commercial Steers in the Junior Show of the 1968 Houston Livestock Show and Rodeo.

Exhibitors in this division of the show will be competing for $5,000 in premiums paid by the Houston Show and will be guests of Armour & Company at a banquet on Wednesday, February 28, at Bill William's Restaurant. The steers are graded according to actual U.S. Market grades and premiums are paid accordingly.

## Record Output, Declining Prices Marked 1967 Agriculture Situation

COLLEGE STATION

The agricultural situation in 1967 turned out to be one of record farm output and declining prices.

John G. McHaney, Texas A&M Extension economist, said that realized net farm income probably was reduced by about 10 percent from the near-record 1966 level. The net effect of larger marketings and lower prices was to reduce cash receipts from marketings only slightly. However, he said, the uptrend in production expenses continued in 1967 and realized net income of farm operators dropped to a $14.8 billion annual rate in January - September, down from $16.6 billion a year earlier.

McHaney noted that production gains for livestock products were large in 1967, especially for hogs, poultry and eggs. Livestock product prices received by farmers in the first half of 1967 averaged five percent below a year earlier. By the third quarter of 1967, livestock prices still averaged four percent lower. In recent months large supplies have held prices for hogs, poultry and eggs well below year - earlier levels.

A record 1967 crop output, some four to five percent above 1966, was produced. Prices of grain and soybeans adjusted downward in response to big gains in production of wheat, feed grains, rice and soybeans. He said the all-crop index of prices received by farmers in July - September averaged eight percent below a year earlier. This narrowed in October with the advance in cotton prices. However, McHaney said, grower prices for wheat were down 10 percent, corn 19 percent and soybeans 12 percent from October 1966.

He said larger exports are in prospect for corn, soybeans, oils and rice during 1967-68. Cotton and wheat exports probably will hold around 1966-67 shipments. Lower farm product prices will help to improve the competitive position of U.S. grains and soybeans.

The uptrend in farm production expenditures will continue in 1968 and accelerate somewhat. Prices paid by farmers for most items used in production will continue to rise in 1968, though feed prices will average lower. McHaney said wage rates will also increase.

All in all, farmers' incomes will not keep pace with expected gains in the rest of the economy, he concludes.

PURINA 20% RANGE CHECKERS TOP 41% PROTEIN CAKE

Many cows are fed a 41% protein cottonseed cake. Yet, a Purina Research test showed that cows daily fed 2½ pounds of Purina 20% Range Checkers averaged calves 19 pounds heavier at weaning than cows on 2½ pounds of 41% cottonseed cake.

Cows may not efficiently utilize 41% protein in their diet. It may be costing you extra money to give it to them. Purina Research has proved that a 20% protein ration blended properly with other ingredients can do a better job of helping cows produce strong calves.

Don't underestimate protein, but don't overestimate it either. Get the right balance with phosphorus fortified Purina Range Checkers at our store with the Checkerboard sign.

## IN THE OLD DAYS

**In Aunt Miranda's day there was no question about whether you went to church on Sunday. You didn't stay home because it was raining or snowing, or because you had a slight headache. You went—by horse-drawn wagons or carriages—a much harder trek than it is today.**

**Maybe because it *was* harder, people appreciated it more. Maybe in that era of pre-modern conveniences people had a better sense of values. They seemed to know, at any rate, what was really important.**

**Of course, the church is just as necessary today as it was in Aunt Miranda's day. Certainly the complexities of our present generation make life's problems seem increasingly abundant. Hadn't we better go to church next Sunday—and see for ourselves?**

## Rogers ISD Census Underway; Parents Urged To Cooperate

ROGERS

Census taking is underway in the Rogers Independent School District this month, and all parents of the district are urged to give their support to school authorities.

Mrs. Frank Green is taking the census and is working through school children. All children attending Rogers schools will be given census enumeration blanks to take home for parents to fill in, make needed corrections, sign, and return to school promptly. Mrs. Green stated Monday that the family census cards will go out to all homes by Wednesday of this week.

The main problem in the past, according to Mrs. Green, is finding all of the new six-year-old children especially where the family has no children currently in school. All parents with six-year-old children are urged to contact Mrs. Green about enumerating such children. It is important to the child and family as well as to the school that all children are enumerated this month. Call the central school office.

IT'S TRUE

In these days of high living costs, the phrase "farmers are the consumer's best friend" isn't likely to be greeted with enthusiasm. But, it's true, says Dr. W. E. Black,

## THE FAMILY LAWYER

**Divorce Bait**

Janet and Ed knew that his mother was none too happy about their marriage. Yet they were both dismayed to learn, after her death, that she had left money to Ed strictly on condition that he get a divorce.

In short order they challenged the validity of this clause in court. There, the executor of the estate argued:

"It was the mother's money, to do with as she pleaded. If Ed doesn't want to accept it on her terms, he is free to refuse it—and stay married to Janet."

However, the court ruled that Ed could collect his bequest without getting a divorce. The judge said that, as a matter of public policy, the law frowns on any device that is so clearly "hostile to the marriage relation."

It is a general rule that the law is biased in favor of matrimony. This kind of effort to break up a marriage, bu using a bequest as "divorce bait," is usually held null and void.

Nevertheless, an anti - marriage clause might be upheld if, under the particular circumstances, its impact is relatively slight. For example:

A mother left money to her daughter, payable only if she got a divorce. But it also appeared that the daughter was already separated from her husband, and that a divorce suit was pending.

Upholding the terms of the bequest, the court pointed out that in this situation there was not much marriage left to preserve.

What if the bait has the opposite purpose: to keep the child married, rather than to get him divorced?

In one case, for instance, the will gave a son his bequest only if he remained married for a certain period. He sued to knock out this requirement, complaining that it would force him to stay married no matter how much his wife might misbehave.

But the court held that the son would indeed have to give up his right to divorce, at least for the specified time, if he wanted to collect the bequest.

The judge felt that society has less reason to protect the institution of divorce than to protect the institution of marriage.

## Boss Must Issue Form W-2 By 31st

Employers were reminded today by the Internal Revenue Service that employees should receive two copies of a Withholding Statement, Form W-2, on or before Wednesday, January 31, 1968.

A. P. Andrews, administrative officer of the Internal Revenue Service at Temple, said, "This statement shows the total wages paid and the income tax and Social Security tax withheld, if any, during the calendar year 1967."

Total wages shown on an employee's W-2 must include amounts received as sick pay. Sick pay is not required to be shown separately.

If it becomes necessary to correct a W-2 after it has been given to an employee, a revised statement must be issued and marked "corrected by employer."
